

New Mi-Sport : May 2006

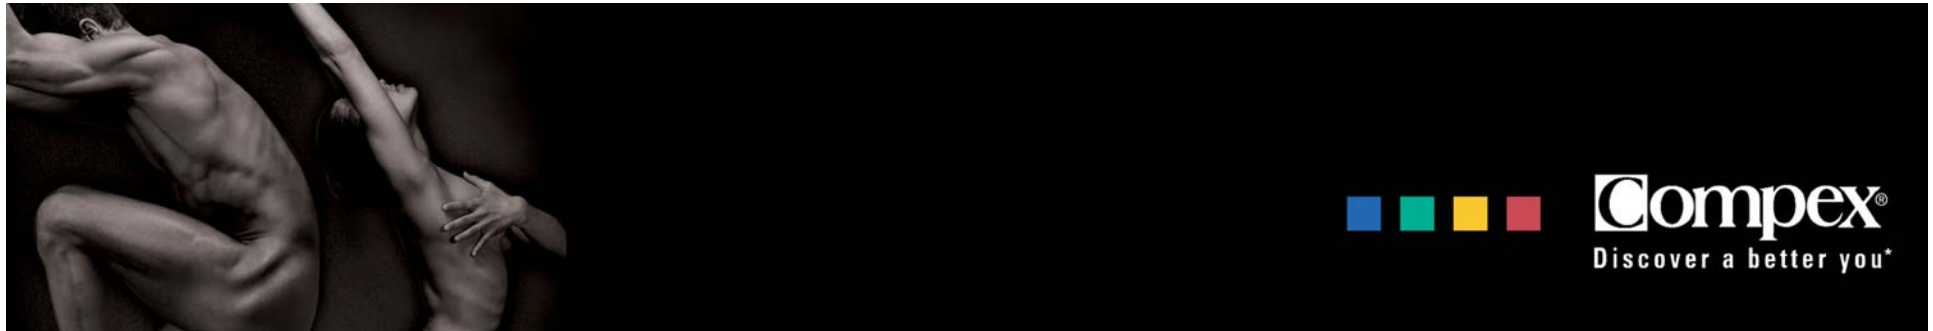

- **Introduction**
- The mi-Sport is the new Compex device positioned on the very high-end sport muscle stimulators category. This device gives the possibility to reinforce the mi-technology and to position it as “the” excellence in EMS industry. It will help further expand the mi-technology in the coming years.
- With the mi-Sport, Compex proposes a high end product with new features (software and hardware) that simplify the way to use the device, reinforce the EMS efficiency and make people’s life easier.

The Compex solution for this target is...

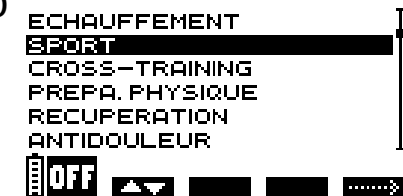

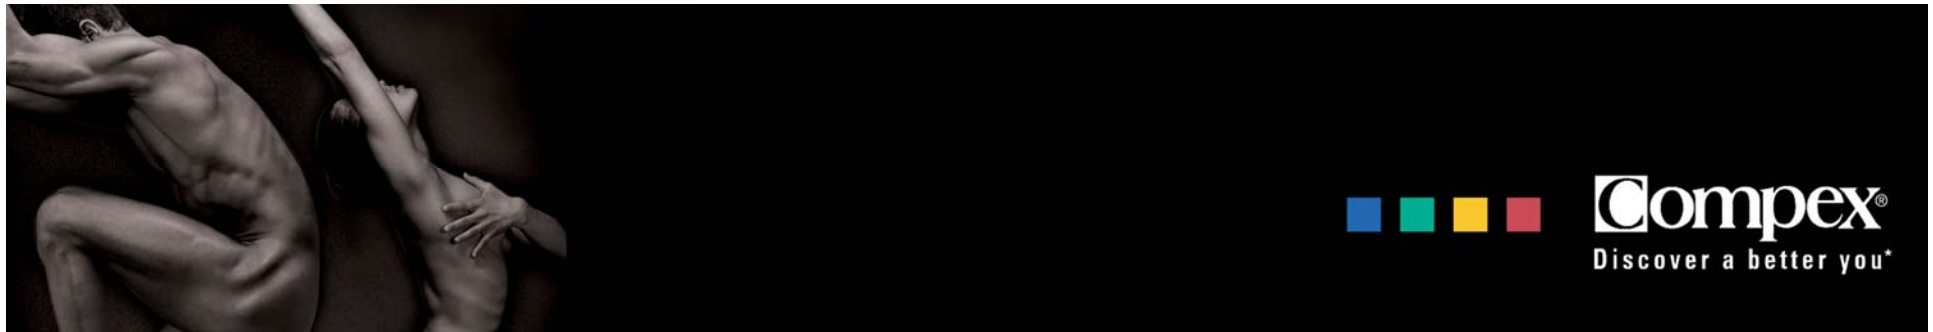

mi-SPORT or the intelligent and most effective way to improve your performance!

New features

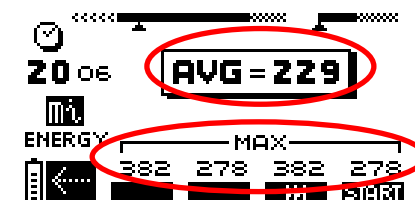

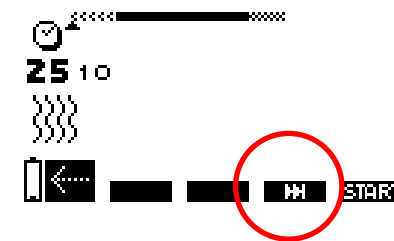

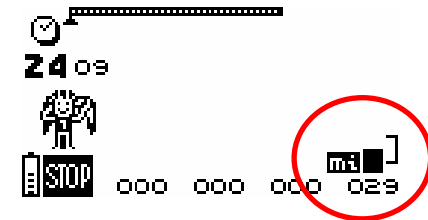

- Programs names and categories organization directly related to the needs of athletes
 - More intuitive and logic to find the right program
- New Conditioning category
 - To respond to the athlete needs and assist him all along his preparation
- New Recovery Plus program
 - To use at the end of an exhausting competition (as a marathon) in order to avoid cramps at the beginning of the program
- New Demo program
 - To facilitate the first try with the Compex by offering the possibility to test all the different types of programs and the mi technology in a 5 min program

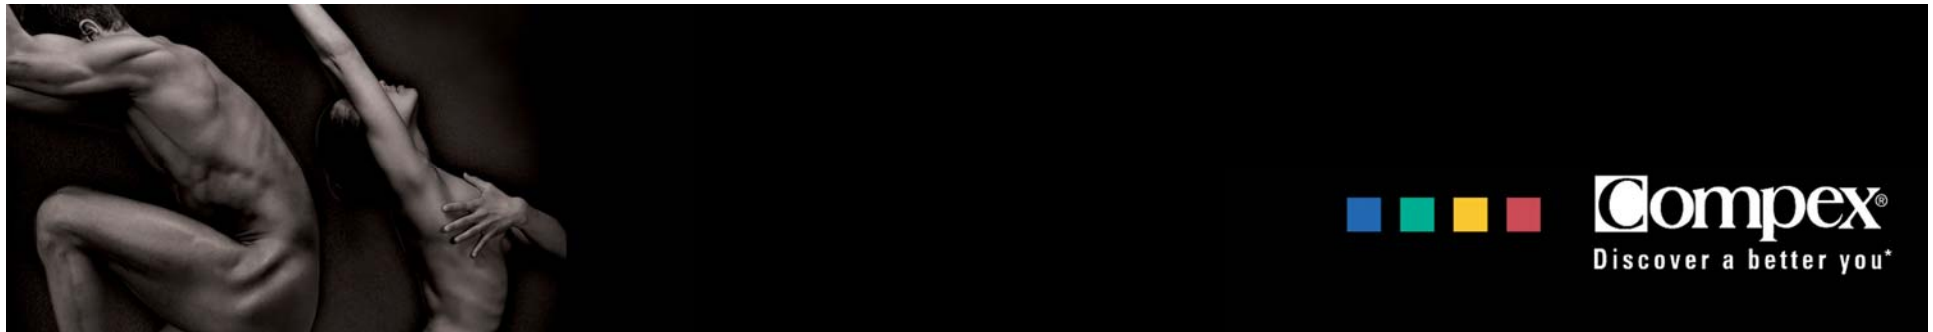

New features

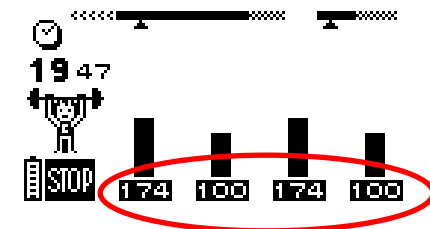

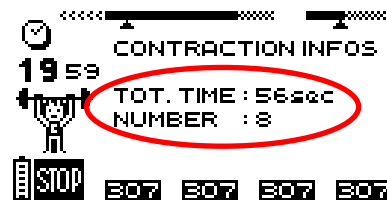

- mi-range application
 - To facilitate and help the adjustment of the energy for low frequencies programs
- Skip function
 - To allow the personalization of the stimulation session
- Statistics
 - To visualize the average and maximum energy reached during a program or the percentage of time passed in the range for low frequency programs

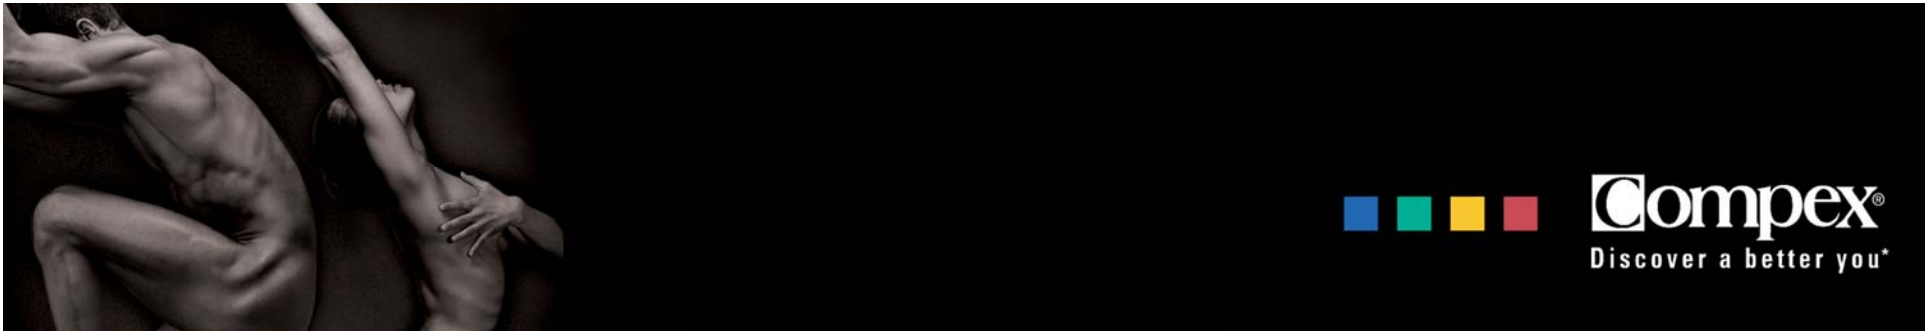

New features

- 1 button with 3 new functionalities
 - Top5: allows to start directly with the last 5 programs done; gain of time and of course easy to use
 - Contraction info: allows to visualize the number of contraction and the time passed in contraction; useful for training with series and repetitions
 - Energy increase: allows to increase energy of 4, 3 or 2 channels at the same time; more practical

New features

- New white backlight
 - Powerful backlight to facilitate the screen legibility even in the dark place
- Motor point pen and his program
 - The stimulation is more precise and thus efficient
- New user DVD (with training planner)
 - Facilitate the first approach and use of the Compex by giving practical examples, specific applications, electrodes placements videos, etc.

To summarize: more functionalities for the same price

mi-SPORT programs

All the major programs to follow the athlete all along his activity

SPORT
ENDURANCE
RESISTANCE
STRENGTH
EXPLOSIVE STRENGTH
PLYOMETRY
HYPERTROPHY
CROSS-TRAINING
FARTLEK
CROSS-ENDURANCE
CROSS-RESISTANCE
CROSS-EXPLOSIVITY
RECOVERY
ACTIVE RECOVERY
RECOVERY PLUS
RELAXING MASSAGE
REVIVING MASSAGE
ANTI-STRESS MASSAGE
UNDULATED MASSAGE 1
UNDULATED MASSAGE 2
REGENERATION
HEAVY LEGS
STRETCHING

PAIN RELIEF
MODULATED TENS
ENDORPHINIC
DECONTRACTURE
CERVICAL PAIN
THORACIC BACK PAIN
LOW BACK PAIN
LUMBAGO
EPICONDYLITIS
TORTICOLLIS
WARM-UP
CAPILLARIZATION
TONING MASSAGE
POTENTIATION
REHABILITATION
DISUSE ATROPHY
MUSCLE GROWTH
REINFORCEMENT
TEST
MOTOR POINT
DEMO
CONDITIONING
ABS
CORE STABILIZATION
LOW BACK REINFORCEMENT
ANKLE TWIST PREVENTION
